

Canadian Space Agency

Steve MacLean

Canadian Space Agency President

John H. Chapman Space Centre

6767 Route de l'Aéroport

Saint-Hubert, Québec J3Y 8YE

Dear Mr. MacLean,

congratulations!

A virtual 3D bomb has been placed in the John H. Chapman Space Center.

I would doubt this!

With the help of the associated detonator, one day you will be able to bomb away all undesirable and sometimes risky augmented reality trash which has accumulated in the space center: bleached aliens, brutal killer zombies, flying adult material, you name it.

For a clean
augmented
future!
